

ILV and Hawktimus Prime

What is Hawktimus Prime?

- ▶ Non-profit organization (of course)
- ▶ Robotics team for FIRST (For Inspiration and Recognition in Science and Technology)
- ▶ Based in Holly Springs
- ▶ ~100 members, from schools around Holly Springs (not limited to Holly Springs High School, where they are based)

Goals/Mission

- ▶ Providing a positive environment for exploring STEM ideals
- ▶ Apply skills learned in class to better grasp concepts
- ▶ Competing with brain power
- ▶ Providing a safe space
- ▶ Gracious Professionalism!

My Plan

- ▶ Working with Hawktimus Prime to create events promoting STEM education
- ▶ Our connections as ILV can help provide various opportunities for Hawktimus
- ▶ Hosting STEM events with Hawktimus and other robotics teams can show nearby schools the importance of STEM education
- ▶ Potentially working with the Hill Makerspace to promote STEM

The Relational Leadership Model

- ▶ Inclusive: Although it's difficult with close to 100 people, they are sure to include everyone
- ▶ Process-Driven: Hawktimus is not very process driven
- ▶ Ethics: Their strongest part, making sure everyone feels safe in every way and have parts of the team that support ethics
- ▶ Empowering: Another strong part but needs work. Most of the leaders allow students to take charge
- ▶ Purpose: Not quite there with purpose, as the main goal may not be clear to the whole team
